The 21st HCI International Conference will feature a Thematic Area on HCI 2024, bringing together researchers and practitioners from around the world to explore the latest advancements and trends in human-computer interaction (HCI).

HCI is the study of how humans interact with computers and other interactive technologies. It encompasses a wide range of topics, including user experience (UX) design, usability, accessibility, and social computing. HCI researchers are constantly working to develop new and innovative ways to make computers and other technologies more user-friendly and efficient.

Thematic Area HCI 2024

The Thematic Area HCI 2024 will focus on the following topics:

- **The future of HCI:** What are the key trends and challenges that will shape the future of HCI?
- **HCI for emerging technologies:** How can HCI principles and techniques be applied to new and emerging technologies, such as artificial intelligence (AI), virtual reality (VR), and augmented reality (AR)?
- **HCI for social good:** How can HCI be used to create technologies that make a positive impact on society?
- **HCI for accessibility:** How can HCI principles and techniques be used to make technologies more accessible to people with disabilities?
- **HCI for user experience:** How can HCI principles and techniques be used to create technologies that are more user-friendly and enjoyable?

Call for Papers

The Thematic Area HCI 2024 is now accepting submissions for papers. Papers should be original and unpublished, and should not exceed 10 pages in length. Papers will be peer-reviewed and selected based on their quality, originality, and relevance to the conference theme.

The deadline for paper submissions is **January 15, 2024**.

Conference Details

The 21st HCI International Conference will be held in Copenhagen, Denmark, from **July 9-13, 2024**. The conference will feature a variety of

keynote speakers, workshops, and tutorials. For more information, please visit the conference website.

The Thematic Area HCI 2024 is an excellent opportunity for researchers and practitioners to learn about the latest advancements and trends in HCI. The conference will provide a forum for sharing new ideas, discussing challenges, and networking with other experts in the field. We encourage everyone to submit a paper and participate in this exciting event.
